## Post Master Exam For Canal Point Job

An examination for Postmaster at Canal Point will be open for acceptance of applications until Sept. 8, 1959, the Commission has announced. The job pays \$4990.00 a year. The exams will be taken at the West Palm Beach Post Office.

Competitors for the postmaster vacancy in this city must have at least 1 year of experience showing that they have the ability to conduct and manage the community's postal business efficiently and to supervise employees so that customers are satisfied with the service.

Competitors must show that they can deal with the public agreeably and effectively and that they are reliable citizens who would command the respect and confidence of patrons of the post office.

Applicants must take a written test. Those who pass will be assigned final ratings on the basis of this test and on their experience, and fitness for the position. They must have resided within the delivery of the office for one year immediately preceding the closing date of the examination. In addition, they must have reached their 18th birthday on the closing date for acceptance of applications. Persons over 70 years of age cannot be appointed.

Complete information about the examination requirements and instructions for filing applications may be obtained at the post office for which this examination is being announced. Application forms must be filed with the U. S. Civil Service Commission, Washington 25, D. C. and must be received or postmarked not later than Sept. 8, 1959.

## Signs Of Life Are Traffic Signals

TALLAHASSEE—Traffic signs, signals, and pavement markings are signs of life. Know them by shape, obey them on sight. One hundred per cent adherence to this rule would cut traffic accidents in half, according to a bulletin from the Florida Highway Patrol.

"These 'signs of life' are designed in five basic shapes, and each shape carries a different type of message," Florida Highway Patrol Commander H. N. Kirkman said. He pointed out that motorists "should learn to recognize the shapes of highway signs so that they can tell at a glance what type of problem they are about to meet on the highway."

Commander H. N. Kirkman of the Florida Highway Patrol listed the five basic signs shapes and their meanings, and stated that disregarding these highway signs and signals is a major accident-causing violation.

1. An eight-sided sign means STOP—no message, one requirement—never anything else.

2. A diamond-shaped sign indicates reduce speed—narrow bridge, curve, intersection, slow school, and so on.

3. Rectangular signs show speed limits, mark no-passing zones and give other regulations on information.

4. A round sign is a railroad

## Fletchers Return From Trip North

Mr. and Mrs. R. P. Fletcher of Pahokee and daughter, Miss Mabel Fletcher of Coral Gables, returned last week from a two weeks vacation trip into northern areas. Among other places they visited Cumberland Gap Park and returned via the Great Smokies. They also visited in Martinsville with Mrs. Fletcher's brother. Back into Florida they visited in North Florida with Mr. Fletcher's sister in May, a brother in Branford and another brother in Williston. Miss Fletcher remained in New England for a longer visit.

## Applicants Urged By Canal Pt. Lions

James W. Gibson, new president of the Canal Point Lions Club, and Phelix A. Slonaker will represent the club at the Lions District meeting to be held at Cocoa later this month, according to plans announced at the weekly dinner meeting of the club Monday night. Members of the club were urged to encourage qualified local persons to make application for the written examination for the second class postmastership at Canal Point. The postmaster's position at Canal Point, which pays \$4,990 a year, has been vacant since the resignation of Osceola Upthegrove became effective last June. Closing date for the written tests, which can be taken at the West Palm Beach postoffice, is Sept. 8, 1959.

## T-Sgt. Barnes Gets Overseas Duty

T-Sgt. and Mrs. James Barnes and children are visiting their parents, Mr. and Mrs. Homer Barnes and Mr. and Mrs. R. Henderson, in Pahokee before leaving on Aug. 20 for Japan where they expect to make their home for the next three years. Sgt. Barnes, who has been stationed by the U. S. Air Force at MacDill Field, Tampa, for the past several years, is being transferred to Japan for overseas duty in that area. He has been with the USAF since August, 1948.

## Annette McIntosh Returns Home

Miss Annette McIntosh, Florida State University senior, returned to her home in Pahokee this week from St. Louis where she has been taking some special courses in business management for the past month under a William A. Danforth Fellowship which is offered every summer by its sponsor, the Ralston Purina Company, of St. Louis to one college student in each state majoring in home economics.

Mrs. C. B. Jones and son, Alton visited Mr. and Mrs. David Jones and family at Ft. Myers Beach Friday and Saturday.

warning and always found 30 to 500 feet ahead of a railroad grade crossing.

5. The railroad crossbuck marks the intersection of highway and railway — and don't forget there may be more than one set of tracks.

## Joe Waddell Heads Housing Authority

J. F. Waddell was elected chairman of the Pahokee Housing Authority at a meeting of the Board of Directors the past week Leonard Dobrow was elected vice chairman and Robert Apelgren, assistant secretary-treasurer.

James W. Vann, PHA executive director, gave a report on operations for the fiscal year ending June 30. In the low-rent housing projects, which contain 115 units, the total operating income for the nine-month period since the projects have been completed and the houses occupied was \$40,978.59 out of which a net of \$13,097.33 goes to the Federal Government as debt service to apply on the cost of the projects. The monthly rent on the houses in these projects average \$39.59, he said.

The total operating income from the 500 rental units of the three farm labor supply centers supervised by PHA was \$121,859.54, approximately \$4,000 less than last year. Operating expenses for the farm labor supply camps totaled \$120,258.06, leaving a net of \$1,601.48 above expenses, Vann reported.

## Communication

15 August 1959  
Avon Park, Florida  
"Everglades News"  
Rardin Building  
Canal Point, Florida  
Dear Sirs:

I was by your office recently and gave the newspaper some information with regard to a Safety Demonstration to be given by the Director of Safety of the Florida Farm Bureau at the Pahokee and Belle Glade High Schools on the 9th of September.

Since that time it has been necessary to change the date of the Demonstrations from the 9th to the 10th of September, same time and place. The Fall District Meeting of ten south Florida counties has been scheduled for the 9th of September at the Community Center in Canal Point.

I'd like to invite you to attend both the District Meeting in Canal Point on the 9th and the Safety Demonstration at the High School in Pahokee and Belle Glade on the 10th of September. I'm sure our local Farm Bureau folks will extend you their personal invitation.

Sincerely,  
Charles R. Collins  
Fieldman  
Farm Bureau

## James Vann Attends Elks Conference

Mr. and Mrs. James W. Vann left the past week for Virginia where he will attend an Elks conference and school for district deputy grand exalted rulers at Bedford and they will visit Mrs. Vann's brother-in-law and sister, Mr. and Mrs. Frank A. Huguleit, at Portsmouth. They were accompanied as far as Georgia by their niece, Miss Carolyn Sellers, who will visit relatives there.

Mr. and Mrs. J. V. Thomas, Jr., and daughter, Terry were the weekend guests of her parents in Ft. Pierce.

## VACATION TIME IS WITH US AGAIN

When you receive this copy of this great palladium of the family fireside The Everglades News force will be on vacation. Our office closed on Thursday morning of this week and will re-open for business on the morning of Wednesday, September 2. During that time many members of the piscatorial tribe are bound for the frying pan. In the interim, please make a sincere effort to get along without our presence and we will be back on the job come the Second of September.

## Chief Leon Guthrie At Home Resting

PHF Trooper and Mrs. Carl Williams and children have returned to their home in Moore Haven after a visit with her parents, Police Chief and Mrs. Leon Guthrie, at Pahokee. Chief Guthrie, who became ill while vacationing at Fort Myers Beach earlier this month, is still convalescing at his home where he is reported to be improving steadily.

## Frank O'Connell Steadily Improving

Deputy Sheriff Frank O'Connell of Canal Point, who has been a patient at St. Mary's Hospital in West Palm Beach since suffering a heart attack last week, was reported this week to be steadily improving, however, it is expected he will have to stay at the hospital another three weeks before he will be able to return to his home at Canal Point for a period of convalescence.

## Donald Pickett Received BS Degree

Donald Pickett received a Bachelor of Science Degree from Florida State University the past week. His mother, Mrs. John T. Pickett, Sr., of Pahokee and sister, Miss Bette Pickett, of Delray Beach were present to see him graduate. He was also commissioned a second lieutenant in the U. S. Army and is scheduled to report at Fort Knox, Ky., on Mar. 11 for two years of active duty in the Army. Donald is now with his mother at their home in Pahokee.

## Fellowship Members Return From Camp

The Misses Kathleen Spencer, Kathy Wilson and Dorothy Hutton, members of the Pahokee Senior Methodist Youth Fellowship, attended the Methodist Youth Camp at Leesburg the past week. They were accompanied back to Pahokee by Kathleen's sister, Miss Joyce Spencer, student at FSU who has been serving as counselor at the youth camp this summer.

## SINGING CONVENTION MEET

The Glades Singing Convention will meet Sunday, August 23, at the Church of God of Prophecy in Pahokee. Come, be with us, Everybody welcome.

Mrs. Endy Milliken, Sec.

## New Teachers Are Appointed At PHS

Appointment of new teachers at Pahokee Schools have been completed but some of the appointments have yet to be confirmed, according to Brooks Henderson, high school principal.

New teachers joining the high school faculty, appointments of whom have been confirmed, are Robert M. Hoffman, librarian; Ronald Kahle, mathematics instructor; Joshua Caber, diversified cooperative training director, and Sue Opler, girls' physical education director.

Returning faculty members at the high school include Leland Keene, Carney Wilder, Vance Denton, Ellen Morgan, Ann Donehoo, W. D. Howard, Doris Lane, Reginald Whiteside, Myrth McCormick, Phara Morris, Robert Maxson, Web Fell, Robert O. Lampi, Robert Woofter, Noma Norman, Kyle Scott, assistant principal, and Ma Mae Lampi, school secretary.

The appointment of Claude T. Campbell, formerly of Raeford, N. C., as a new teacher completes the teaching staff in the Elementary School, according to Herman Austin, principal.

Teachers returning at the elementary school are Betty Shelley, Edna Maxson, Gladys Woofter, Fern Frank, Myrtle Johnson, Emma Scott, May Laffin, Elsie Sims, Reba Golden, Kathryn Cunningham, Peggy Willis, Colo Douthitt, Frances Whiteside, Beulah Boe, Sarah Thomas and Tommy Lee DuBose.

## Circusland New Dollar Grabber

SANFORD—Florida will soon have another major tourist attraction which experts say will bring \$200 million a year in hotel, restaurant and automobile services alone to Sanford and Seminole County.

Circusland, a year-round attraction patterned after Disneyland in California, will be constructed on 250 acres. It will be the next-to-the-largest attraction in the U. S., topped only by Disneyland.

The first year of operation, according to the opening announcement, will see Seminole County attracting more tourists than Knotts Berry Farm and Marineland of the Pacific, and even surpassing Cypress Gardens and Silver Springs.

The decision to locate near Sanford was revealed by Maurice Marshall, president of Entertainment Enterprises, Inc. Marshall said construction will begin in October with Circusland slated to open in December, 1960. Cost of construction and the first year of operation has been set at \$7.5 million with approximately 1,200 persons being employed.

Mr. and Mrs. Ralph Maxson and children have returned from a visit with her mother, Mrs. J. M. Pittman, and other relatives at Bogalusa, La.

Mr. and Mrs. Fred Peak of Zebulon, Ga., were guests the past week of their nephew and niece, Mr. and Mrs. W. K. Buchanan, at Canal Point.

## Gov. Collins Favors Reapportionment Compromise Nov. 3

TALLAHASSEE — Gov. LeRoy Collins said today he will actively support the reapportionment compromise in the Nov. 3 general election.

The compromise would create a 41-district state senate, adding six senators, and increase house membership from 95 to 103.

Collins told the Associated Press he could not say at this time whether he would stump for the proposed reapportionment formula.

"I think there should be developed an organization of people who are interested in approval of the amendment so that the merits and advantages of the proposed constitutional change can be brought clearly to the attention of the people," he said.

The 44-senator plan would create new senate districts of Okaloosa, Bay, Sarasota, Brevard, Monroe and Highlands-Glades Counties and have the effect of making Manatee, Seminole and Santa Rosa one-county districts.

The eight new house members would be distributed among larger counties with two going to Duval and one each to Duval, Hillsborough, Orange, Broward, Palm Beach and Escambia.

## Nov. 3 Election Has Important Issues

TALLAHASSEE, — Secretary of State R. A. Gray obtained an official opinion today that proposed constitutional amendments relating to racetrack funds and the game commission would be voted upon in 1960 rather than Nov. 3 this year.

Gray also was advised by Attorney General Richard W. Ervin that special and referendum elections on special acts relating to county and municipal affairs could be held on Nov. 3. But he said the proposals would have to be submitted on ballots separate from the reapportionment proposal.

The 44-senator, 103-representative reapportionment amendment is the only proposal to be voted upon statewide in the November general election this year.

Gray had said previously the racetrack and game amendments should be voted upon next year instead of this year. The attorney general agreed.

Ervin said the legislature had taken no action in the case of the racetrack and game amendments to submit them on an emergency basis.

The racetrack amendment would guarantee constitutionality to the 67 counties the equal share of racetrack funds they now receive. The game amendment would give the legislature a say in spending game funds.

## Buy Savings Bonds And Thus Get Your Shares In America

Through recession and boom, through rising and falling commercial interests rates, United States savings bonds remain one of the most popular of all investments for the average American. They are particularly popular with farm people in Florida and other states. According to recent Treasury Department figures, citizens of the United States now own about \$4 billion worth of United States savings bonds. The rate of sales and the rate of bond cashing have varied with changing economic conditions, but sales still are holding up well in Florida and throughout the country.

Savings bonds remain one of the safest and most convenient of all investments. The payroll deduction plan and other automatic purchase plans offer a regular form of saving that appeals to even the smallest savings bond.

Florida Agricultural Extension Service workers point out that the combination of a regular saving plan plus absolute safety for the money invested has attracted and held millions of investors—urban and rural.

During World War II War Bonds were sold with a patriotic appeal. This appeal still has meaning. The treasury depends on sale of Savings Bonds to help with financing of the government in these expensive Cold War times. It truly can be said that saving bond buyers are buying shares in America.

Mrs. Russell Maxson left Sunday for several days visit with friends in Tampa.

Miss Delilah Strayer returned to her home Saturday after having surgery at the Everglades Memorial Hospital.

Mr. and Mrs. Grady Echols and Terry returned Sunday after a visit with relatives in Alabama.

## Chemicals Third On Florida's List

The manufacture, in Florida, of chemicals and chemical products is one of the top industries in the state and gives direct, year-round, employment to approximately 15,000 people. Gauged by number of employees, chemicals rank today third, just below food products and lumber-wood products, among the many types of goods manufactured in the state, the Florida State Chamber of Commerce said yesterday.

In 1937, the last year for which official details on the industry are available, plants making chemicals added a value of \$189 million to the cost of the raw materials used in the manufacturing processes. This "value added" figure is a realistic measure of the contribution of

these plants to the economy of the state. In this respect, chemical plants ranked second, just below food products plants which have long stood out, in front as the state's leader in manufacturing.

New chemical plants and expansions of existing plants constructed and put into operation in Florida during 1937 were worth over \$9 million. No other classification of manufacturing showed so great a growth during that year.

There are now some 200 plants making chemicals in Florida. Products include industrial chemicals, paints, fertilizers, printing ink, medicines, cleaning and polishing compounds, plastics, naval stores and other resins, bottled gas, insecticides, nad fungicides, fish and vegetable oils and perfumes and cosmetics.

## Certificates Of Birth Not Always Needed, Say SS Men

Birth certificates are not always necessary when applying for old-age insurance benefits, Jack D. Brown, district manager of the Tampa Social Security Office, pointed out yesterday.

Brown said that this is a common misconception among those who apply for old-age benefits in this area. Although birth certificates are not necessary, some proof of age is required. Some of the more commonly used proofs are old family records such as a family Bible, old insurance policies, voters records, and marriage records.

To be used as evidence, Brown continued, "these documents must show the claimant's date of birth—age; they must be authentic and they should be reasonably old. We cannot tell whether a piece of evidence is acceptable until we see it."

## Pick your savings target and shoot straight for it!

**A** home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.30 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

**For the big things in your life, be ready with U. S. Savings Bonds**

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic attention, the Advertising Council and

### The Everglades News

PAUL RARDIN, Publisher

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save, because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid  
your interest as current income—  
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

## Now even better! Invest more in Savings Bonds!

The U. S. Government does not pay for this advertising. The Treasury Department thanks for their patriotic donation, the Advertising Council and

## Manage Dairy Herds To Avoid Losses To External Parasites

**GAINESVILLE**—Good management, sanitation, and proper and regular use of available insecticides are major factors in the control of external parasites in the dairy herd, according to W. M. Stone, assistant in parasitology with the Florida Agricultural Experiment Station.

Sprinkling lime on floors of dairy barns and milking areas goes a long way to prevent breeding of parasites on the premises. The dairyman must be especially careful of his barn animals, and even himself and his helpers to prevent contamination of the milk.

Recently developed insecticides give dairymen powerful weapons for use against external parasites. These are efficient and safe if properly used. Insecticides are poisons and should be treated as such. Keep them in closed, well labeled containers away from children and pets. They should be in a dry place where they will not contaminate food or feed.

Methoxychlor dust may be sprinkled on backs of non-milking animals for horn fly control. It can not be sprayed or used as a dip. In general, it is not recommended for dairy use because of its zero tolerance in milk.

Rotene dust is effective for cattle grubs; rotenone sprays for lice and ticks. Pyrethrin and synergist mists are recommended for horn, horse and stable flies; mosquitoes, ticks and lice. Lethane or thanite mists are used for horn, horse and stable flies and mosquitoes.

Lindane, as EQ 335 gives control of screwworms in wounds. Mixed with xylene oil, it is effective for control of ear ticks.

Chester H. Mullis and W. F. Tillis attended an "all-star" sales conference of the Life Insurance Company of Georgia at the Conrad Hilton Hotel in Chicago, Ill., the past week, Thursday through Saturday.

## It Is Unlawful For Any Person Or Persons To Engage In Business Under A Fictitious Name Unless The Name Is Registered

The fictitious name statute was recently changed by the 1951 Legislature and the News has the necessary forms for proper registration and advertising.

The charge for advertising the notice the necessary four times is \$15.

As amended by the 1951 session, the law reads as follows:

"It shall be unlawful for any person or persons, as defined herein, to engage in business as herein defined, under a fictitious name as herein defined, without and unless said fictitious name shall be registered with the clerk of the circuit court of the county where the principal place of business is, which registration shall consist of filing with the clerk aforesaid an affidavit signed by all interested persons, stating under oath the names of all those interested in the business enterprise, the extent of the interest of each, and the fictitious name under which said business is carried on. Said registration may not be made until the person or persons desiring to engage in business under a fictitious name shall have advertised his or their intention to register said fictitious name at least once a week for four (4) consecutive weeks in some newspaper as defined by law in the county where said registration is to be made, and said registration shall not be accepted by the clerk of the circuit court except upon receiving proof of such publication."

Everyone welcome. Special music and singing.

### Christian Science Group Of Canal Point

How the understanding of God as divine Mind brings health and harmony will be brought out Sunday at Christian Science services. John's account of the healing by Christ Jesus of the impotent man at the pool of Bethesda (Ch. 5) is presented in the Bible readings. The Lesson-Sermon is entitled "Mind".

From "Science and health with Key to the Scriptures" by Mary Baker Eddy will be read the following (339:25-28): "The basis of all health, sinlessness, and immortality is the great fact that God is the only Mind; and this Mind must be not merely believed, but it must be understood."

The Golden Text is from Psalms (147:5): "Great is our Lord, and of great power; his understanding is infinite."

### Farmers Receiving Only 40 Cents Of Consumer's Dollar

**GAINESVILLE** — Farmers received an average of 40 cents of the retail dollar consumers spent for food last year, according to the U. S. Department of Agriculture. This was a 16 year low. In the 45 years this calculation has been made, the farmer's share has been less than 40 percent only in the depression years of the 1930's.

The farmer's share of the consumer's food dollar varies widely from product to product. How much of the retail price for product goes to the marketing system depends to a large extent on the processing and other services required to get it to the consumer.

Last year, the farmer's share of the retail dollar varied from a high of 69 percent for butter and 67 percent for choice beef, to a low of 15 percent for bread and 12 percent for corn syrup.

### DDT & Water Actions Studied By USDA Workers In Orlando

ORLANDO—Discovery that the behavior of DDT in water influences its effectiveness in killing mosquito larvae is announced by the U. S. Department of Agriculture.

This previously unknown action of the world's most widely used insecticide was discovered by USDA entomologists and chemists at Orlando. The finding came about during their attempts to determine why simple mosquito-resistance tests in laboratories failed in some instances to provide reliable data.

Employing a radioactive tracer in DDT, scientists found that the chemical rushes to get out of suspension in water, either by evaporation or by clinging to walls and bottoms of containers.

The discovery may help explain some of the unpredictable results obtained by mosquito control workers in applying the insecticide to ponds, lakes, and other breeding areas.

Field studies are now being contemplated to see if changes in the manner of using DDT will lead to more effective results.

## don't be a DISHWASHER ... BUY ONE!

"Escape from a life sentence of thankless, tedious drudgery!" A modern automatic Electric Dishwasher will wash-rinse-dry faster, easier, cleaner and better. Just stack the dishes (even pots 'n pans), press a button... and free yourself for leisure. Everything comes out sparkling-bright—sanitized by scalding water.

### Never again hand-wash another dish! Get an AUTOMATIC ELECTRIC DISHWASHER

See the display NOW at your favorite electric appliance dealers. Models and colors to fit every kitchen. Portables too; roll on wheels; plug-in for instant use. Surprisingly easy terms.

26 dishes a day, 46,000 per year—for an average family

a castle in the air costs nothing  
—but you can't live in it!

Make your dream house come true! It's easy  
—through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series H Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.65 cash. In 9 years, 8 months, you'll have \$7,217.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dream come true!

*If you want your interest or current income, ask your bank about Series H Bonds, which pay dividends monthly by Treasury check.*

#### Choose your own savings goal

	If you want approximately		
	\$5,000	\$10,000	\$25,000
Start weekly for 9 years and 8 months, save.....	\$5.00	\$10.00	\$25.00
Start weekly for 10 years and 8 months, save.....	\$4.75	\$9.50	\$23.75

This chart shows only a few typical examples of savings goals and the amounts that must be saved each week. Remember, you can save as much or as little as you want. For more information, ask your pay office or a bond dealer.

## Miss Mary Ann Miller Given Surprise Shower

The Sunday School building at the Canal Point Methodist Church was the scene of a recent surprise shower in compliment to Miss Mary Ann Miller, bride-elect. Hostesses were Mrs. Robert Shelley, Mrs. W. E. Blackwell, Mrs. Joe Cherry, Jr., and Mrs. C. L. Stuart. The hostesses used pink and white hibiscus and white mums in carrying out a color scheme of pink and white. Mrs. Shelley and Mrs. Stuart were in the receiving line. The honoree was assisted by her sister, Mrs. Carl Wagoner, of Belle Glade and Mrs. Shelley in the opening and display of the gifts.

## ROTARIANS HEAR JOHNSON

Charles (Chuck) W. Johnson of Lake Worth was guest speaker at luncheon meeting of the Pahokee Rotary Club Thursday of last week. Introduced by C. A. Batchelor, program chairman, the speaker compared the merits of various financial investments and emphasized some of the advantages of mutual investments. President C. E. (Bill) Williams presided. Luke Dufresne, administrator of the Everglades Memorial Hospital, had as a guest at the meeting his grandson, Philip Chase, of Lantana.

## Miss Beth Smith To Wed Harry Elarbee

Plans for the marriage of Miss Beth Smith of Canal Point to Harry Brooks Elarbee of West Palm Beach at the Canal Point Baptist Church Saturday, Sept. 5, at 4:30 p. m. have been announced.

Miss Smith has chosen Miss Lory Ann Rockwell of Belle Glade for her maid of honor, and the Misses Janeyce Floyd of Tallahassee, Mignon Jordan of Bartow, Betty Jones of West Palm Beach and Kay Seckinger of Glennville, Ga., as bridesmaids.

Little Miss Jamie Gibson of Canal Point and Mary Dense Cross of Palmetto, cousins of the bride-elect, will serve as flower girls. Master Vernon Elarbee, Jr., of Tampa, cousin of the bridegroom-elect, will be ring bearer.

Mitchell Kirk of Pahokee will be Mr. Elarbee's best man. Hunter Latham, Homer Latham, Freddie Baakey, Billy Henderson and Johnny Smith, brothers of the bride-elect, will serve as ushers.

The Rev. Walter T. Cross of Palmetto, uncle of the bride-elect, will officiate at the double ring ceremony which will be followed by a reception at the home of Miss Smith's parents, Mr. and Mrs. R. T. Smith.

No invitations are being sent locally but all friends of the couple are invited to attend both the wedding and the reception.

## Outlook Committee Reports On Florida Cattle, Hog Prices

GAINESVILLE—Florida cattle prices are likely to remain high during the fall and winter, according to the Florida Agricultural Extension Service Outlook Committee.

Feeder cattle prices during this period are expected to hold steady with only a moderate seasonal decline, depending on pastures and range conditions. Intense competition for high grade feeder stock will probably keep the market strong for cattle moving to grain feed lots.

The situation looks different for late 1960-1962, according to the Committee. Although steer and heifer slaughter is up some, cow slaughter was down 22 percent and calf slaughter was off 18 percent in the January-May, 1959, period.

Specialists say this indicates a build-up in herds. Florida may have as many as 101 million cattle on farms in January, 1960, compared to 97 million on January 1, 1959.

This is about twice the rate of increase needed to keep pace with population growth. The Committee warns that if this build-up continues the future may not be so bright, but prices should remain fairly high during the rest of 1959.

According to the Committee, now is the time to cull the herd closely.

Hog prices are down and probably will be down throughout 1960. If present intentions are carried out, the fall pig crop will be about eight percent higher than last year and 27 percent over two years ago.

Hog prices next winter and spring are expected to be lower than last season, if the expected eight percent more pigs are saved this fall. Prices in 1960 are expected to be low, probably lowest in the fall.

Mr. and Mrs. A. T. Holt are spending a two weeks vacation in North Carolina.

## Lukemia Study Is Set By AC Society

TAMPA—The many problems associated with a rapidly increasing death rate from leukemia will be explored by a special study group of the American Cancer Society.

Its findings will be reported to the American Cancer Society Board of Directors which will then consider what measures need to be taken. The action was authorized at a recent Executive Committee meeting.

The American Cancer Society already has an extensive research program concerned with leukemia, supporting nearly \$1,000,000 worth of grants in this area, about one-twelfth of the Society's total current research effort.

The American Cancer Society said that leukemia now claims about 11,000 lives in the United States each year and nearly 2,000 of these are children under the age of 15.

The death rate from leukemia

for males has risen from 2.6 per 100,000 population in 1930 to 7.4 in 1956. For females the increase was from 1.8 to 5.1 for the same period.

In other action by the Executive Committee, an application was approved from the new 50th state to become the Society's 60th Division. The Hawaii Cancer Society requested and was granted affiliation with the American Cancer Society. The new division will be issued a charter to carry on cancer control methods in the State of Hawaii on the same basis as all other divisions throughout the United States.

Mr. and Mrs. O. H. Sheppard and daughter, Hazel, left the past week for a vacation in the Carolinas. They were joined on their vacation trip by another daughter, Miss Helen Sheppard, at Tallahassee where she had been attending summer school at Florida State University.

Mrs. Cleo Douthit has returned from a visit with her parents, Mr. and Mrs. O. F. Griffin, at Ochlocknee, Ga., and other relatives in North Carolina and Tennessee.

## Salute to FLORIDA COUNTIES

**POLK COUNTY**  
County Seat,  
Bartow

Polk County, formed in 1881, is the largest citrus growing county in the United States... with Winter Haven the site of the Florida Citrus Exposition, and Lakeland the home of the Florida Citrus Commission. About 65% of the world's supply of phosphate is mined here. Other diversified sources of income include packing and canning, general agriculture, cattle raising, and tourists who take advantage of the temperate climate, 300 lakes containing a variety of fresh water fish, and varied cultural, recreational and sports facilities.

In progressive Polk County, and throughout Florida, the United States Brewers Foundation works constantly to assure the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of the people of Florida, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials in its continuing "self-regulation" program.
